Bamboo:

Grown organically in China before being processed in a closed loop system that uses non-toxic solvents and still captures and reuses them. Their bamboo is certified by Ecocert, OEKO-TEX, FSC, ISO 9001, and is PETA-approved vegan.

RPET:

Recycled polyester yarn is made from recycled plastic. It is a green and sustainable alternative to other types of fabric. Approved by GRS 4.0, all production under GRS certified from recycling material to dyeing to fabric.

Organic Cotton:

We use GOTS Certified organic cotton. Everything made by Organic Basics is done so using better working conditions, no child labor, living wages, freely chosen employment, and respect for the environment, ensure fair working conditions and BSCI-compliant.
